Subject: Modification of the 405A Machine to the 405B Configuration

Gentlemen,

In accordance with your request [] submits this quotation for modification of the 405A Machine which is presently located at the customer's facility. After careful review of the problem, [] feels that it is impractical to attempt to modify the machine at the customer's facility. Therefore, this quotation is for a modification to take place at []. The equipment, as modified, will have all the capabilities of the 405B configuration and the task to be accomplished includes the following items to be changed:

Tasks I, II, III and IV, as defined by our letter of 23 July 1964 identified by reference #405B-OD-105; Tasks VI, VII and VIII, as defined by our letter of 27 August 1964 identified by reference #405B-OD-107; and modification to install motor drives.

Because of the major breakdown of the machine and the installation of a new microscope and mounts, it is necessary to realign the entire machine at the completion of the modification. The firm fixed price quotation for this modification is [] - f.o.b., [] and shall remain valid for 60 days from this date. This includes the task necessary to have [] personnel reinstall the machine at the customer's facility. It does not, however, include the cost of shipping the equipment to [] or returning it to the customer's facility, since this equipment is owned by the customer, it is felt that it can best be accomplished on the customer's bill of lading.

The proposed schedule is as follows: The 405A machine is to be shipped to [] to arrive ten (10) weeks after receipt of authorization. This will allow time to procure long lead items. The machine will be shipped from [] twelve (12) weeks after its arrival at [].

If there are any questions in relation to this quotation, please contact the undersigned.

Very truly yours,

DECLASS REVIEW by NIMA/DOD
